QUALITY MANAGER

Paradise Breweries is a newly established brewery located in Port Moresby, Papua New Guinea set to enter a decade long monopolized market. Our brewery is designed and engineered based on German brewing technology. Our philosophy is to deliver high quality and outstanding customer service.

We are currently searching a **Quality Manager**. Your role will be to develop a state-of-the-art brewery laboratory. Your tasks include the commissioning of all lab equipment, managing materials, conducting analyses, training, local staff, setting up a quality plan, and implementing a quality management system. Quality control starts from Raw and Packaging Material specifications, entrance control, process control, finish goods control and Out in the Market Quality control.

We offer our employees the opportunity to build their respective departments from scratch, prioritize the quality of beer brewing, work independently with direct reporting lines, and deal with minimal bureaucracy. Furthermore, we offer

- Competitive salary
- Flights
- Health Insurance
- Accommodation
- Company vehicle
- Social club membership

Requirements:

- Degree as Brewer and Maltster as a result of an Apprenticeship in a Brewery
- Diploma in Brewing Technology / Brewmaster
- 3 years in quality control in a brewery laboratory or university laboratory

Responsibilities:

- Commissioning of a new brewery laboratory
- Manage and control all laboratory operation
- Train local staff
- Implementation of HACCP and ISO 9000

Please send application letter, CV and references to Tim Kriebisch via tim@paradisebreweries.com
