

Well tapped!

Operating a Draft Dispensing System

Doemens Academy GmbH is certified and officially recognized in Germany as a trainer for guidelines concerning the “safety and technical evaluation of draft dispensing systems”. It has offered the relevant coursework in this area for many years. The goal of this seminar is to convey knowledge pertaining to the hygiene requirements and technical aspects of operating beverage dispensing systems, in addition to evaluating their risks. The theoretical portion of the seminar provides the necessary information base for understanding the principles behind beverage dispensing, though relevance for practical operations is always of prime importance. In the hands-on part of the seminar, the operation of equipment as well as the use of measuring and cleaning devices are demonstrated and subsequently practiced on a draft system.

Dates: November 23rd – 24th 2017

Trainers: Dr. Michael Zepf

After completing his vocational training as a brewer and maltster, Dr. Zepf studied Brewing Science and Beverage Technology at TU Munich-Weihenstephan, first receiving a Masters of Science degree followed by a Ph.D. Dr. Zepf has been at Doemens Akademie since 2009, where he is head of the Savour Academy and leads beverage dispensing seminars as a specialist on the subject.

Michael Eder

After concluding his vocational training as brewer and maltster, he attended Doemens where he completed the Brewmaster and Production Manager program. Since 2003, Mr. Eder has primarily been involved in consulting, in the World Brewing Academy, and in working as a trainer for seminars on beverage dispensing systems.

Target Group: The seminar is designed to address a diverse group of participants including the operators of beverage dispensing systems, restaurant owners, draft system installers, field agents for breweries who service restaurant clients, those responsible for evaluating the risks inherent to dispensing systems, staff members of relevant government agencies as well as anyone who wants to learn about the latest technical innovations in the field.

- Seminar Content:**
- Dispensing system design
 - Dispensing equipment and technology
 - Saturation of liquids with gases
 - Dispensing gases (CO₂, N₂, gas blends)
 - Practical training (the handling and operation of dispensing equipment)
 - Practical training (evaluating risks)
 - Pressure losses in dispensing systems
 - Dimensioning dispensing systems
 - Hygiene requirements
 - Cleaning beverage dispensing systems and glasses
 - Testing the safety of beverage dispensing systems – theory and practice
 - Systematic troubleshooting and elimination of problems

Doemens Academy GmbH invites all seminar participants to attend an evening event on the first day of the seminar.

Event location

Doemens Academy GmbH / Stefanusstraße 8 / D-82166 Gräfelfing / Germany

Seminar fee

€ 580 (add sales tax) includes handouts, lunch as well as break refreshments and a collective happy hour.

Registration

Doemens Academy GmbH / Stefanusstraße 8 / D-82166 Gräfelfing / Germany
